KAIJU SURVIVOR

TETRIS BLOCK PARTY

- Engine: Unity – 2D
- Platform: Android/iOS
- Company: Playstudios Inc

- I am a programmer on the project.
- The game is available on Playstore/Appstore.
- This game is a Tetris puzzle game that the player needs to complete a line by placing Tetris blocks on the board.
- My main contribution in this project are:
  - Prototyping content such as gameplay feature, animation changes, a different logical flow compared to the existing ones to check the viability of each content for the main game.

TETRIS BLOCK PARTY

SELFMADE SIDE GAMES

HOLE.IO

- The player controls a hole and the hole swallows objects that fits it, the more the hole swallows objects the bigger it gets.
